

Jay Hall and Associates (JHA) provides expert guidance on how to build high quality, high performing buildings. This expertise is built upon the following experience:

- ☑ 25 years of experience in the high performance buildings industry.
- ☑ 15 years of experience as lead consultant to US EPA's ENERGY STAR programs.
- ☑ 10 years of experience as lead consultant to USGBC's LEED for Homes program.
- ☑ 5 years of experience as International Certification Reviewer for USGBC's LEED for Homes.

### Mission

- ☑ Our mission is to guide developers, architects, builders, non-profits, and municipalities to make practical and environmentally sound building decisions in the rapidly evolving green building industry.

### Guiding Principles

- ☑ Always provide highest level of professionalism and attention to the needs of each client and project.
- ☑ **"Green" is a common sense** approach to designing and constructing better performing buildings.
- ☑ **"Green" is a better process** that results in better performance (rather than just a checklist).
- ☑ "Green" measures should be **practical and highly cost-effective**.
- ☑ **Third-party verification is a key part of green homes** - ensuring that the quality of a green home greatly exceeds a conventional (code built) home.

### Core Competencies / Services

- ☑ Building Science and Green Building Education
- ☑ Third Party Verification (Energy and Green Rater Services)
- ☑ Consulting / Design Support / Energy Analysis
- ☑ Custom Program Development and Implementation

## Professional Credentials

- USGBC LEED Faculty
- LEED AP Homes
- HERS Rater
- LEED for Homes Green Rater
- National Green Building Standard (ICC 700-2012) Green Verifier

## Specialties

- Single Family Homes
- Multi-Family Homes
- New Developments

## Green Program Experience

- ENERGY STAR for Homes
- LEED for Homes
- National Green Building Standard (ICC 700)
- Enterprise Green Communities

## Formal Education

- Mechanical Engineer, PhD (Building Science)
- Leadership
- Adult Education

## Recent Clients

- Developers
- Architects / Engineers
- Builders
- US Green Building Council
- Canada Green Building Council
- Habitat for Humanity
- Home Depot Foundation
- BASF
- Residential Energy Services Network (RESNET)
